## Aren't What They Used To Be

At the Laborers International Union, (LIUNA) we're helping contractors meet their workforce, training, and safety needs while keeping costs down. How?

By cooperating with our signatory contractors to provide:

The best trained, highest skilled, hardest working people in the industry

Training that meets or exceeds OSHA, EPA, and other regulatory standards

Assistance making work safer, reducing accident rates, controlling workers' compensation costs, and saving lives

Automated tracking of project and bid opportunities

Expert guidance on regulation

A combined labor-management voice on issues of importance to the entire construction industry.

Why do we operate like this? Because success demands innovation, flexibility, and responsiveness, and we know that our success goes hand-in-hand with yours.

For more information, contact the LIUNA Construction Department at (202) 942-2237.
