

THE LIUNA ADVANTAGE

FOR CONSTRUCTION USERS Best Value and Quality Contracting

Worried about the construction industry's ability to attract, train, and retain a high quality workforce?

Concerned about the safety of the contractors and workers on your project?

Looking for the highest value for your construction dollar?

The Laborers' International Union of North America (LIUNA) can help.

LIUNA and its signatory contractors are working together to raise industry standards, improve contract procurement, promote quality, and protect the bottom line.

- We have helped public entities and Fortune 500 companies develop easy-to-use contract procurement methods that award points for training, safety, past performance, regulatory compliance, and other quality-related issues in addition to bottom-line bid price.
- We work with signatory contractors and key industry groups to promote and enforce the fair contracting laws that help protect responsible contractors, construction users, and taxpayers.
- We educate the public and policy makers about the bidding process, to help create well-informed construction users.

Low-ball, fly-by-night contractors hurt everyone. But high price is no guarantee of high value. LIUNA's best value and quality procurement systems can help you get good construction at a fair price.
