

THE LIUNA ADVANTAGE

FOR CONTRACTORS Flexibility

Union work rules are important, but they should never stand in the way of winning work. At the Laborers' International Union of North America (LIUNA), we work with our contractors and other trades to resolve problems and win work. In the past several years, Laborers and contractors have:

- Developed reciprocity agreements that provide for workforce and benefit portability;
- Drafted multi-trade agreements that help contractors and unions win jobs and increase market share;
- Established market recovery programs that help contractors win specific, highly competitive projects;
- Fashioned clean national agreements to pursue projects and jobs in specific markets;
- Collaborated to meet specific workforce, training, and safety needs in promising markets;
- Built alternative dispute resolution (ADR) workers' compensation programs, where allowed.

Want a partner who will do everything possible to help you win the work? Contact your local Laborer representative and find out more about the advantage of working union.
