BUILD UNION

Planning to build, renovate, or maintain religious or other facilities? Looking for cost-effective, quality contractors who will stay on budget, protect the bottom line, *and* treat workers and the community consistent with the highest religious and ethical teachings? Build Union.

When you build union, you:

- ! Use contractors and workers who do the job right, on time, every time
- ! Usually pay no more for the project than working non-union, thanks to the high productivity of skilled union tradespeople
- ! Ensure that the men and women building, renovating, or maintaining your facility are protected by some of the best safety programs, standards, and training in the industry
- ! Support proven apprenticeship and training programs that build rewarding careers and a skilled workforce
- ! Help working families build secure lives with health insurance, pension plans, and other union benefits
- ! Strengthen your community by using a predominantly local workforce.

Build union and you build not only a high-quality project and a stronger bottom line, but a better world.

For referrals to union contractors and more information about how to build union in the Mid-Atlantic region, please contact Dennis Desmond, Director, Mid-Atlantic Laborers-Employers Cooperation and Education Trust (MA LECET): (202) 331-8357 or ddesmond@lecet.org.
