December 2006

TRAINING AT CONTRACTOR FACILITIES ONSITE PIPELAYING CLASS

Great Falls Training a Success

The Laborers Union is responding to Contractors' needs and providing Onsite Training at Contractors facilities. Great Falls, Montana has 20 new pipelayers.

With the help of the Wyoming Laborers Union's Mobile Training Unit, and their top-shelf instructors, Montana Laborers were recently given an 40 Hour Pipelaying Class. During the course of the class, contractors were invited to attend and observe the process.

Proving the value of training and the need for pipelayers, a number of trainees were given job opportunities by contractors - before the class ended. The attending contractors applauded the Laborers Officials for starting a program that addresses their immediate manpower needs.

Contractors Take Part in Onsite Training Great Falls Laborers

Contractors see firsthand how Laborers are meeting the challenge of providing Quality Pipelaying Training where it's most needed. The Laborers Mobile Training Unit assisted the Montana Laborers in training 14 pipelayers at Boland Construction's facilities in Great Falls, Montana.

MEETING CONTRACTORS' NEEDS NOW
