

LIUNA/DCA Labor-Management Cooperation Trust

The LIUNA/DCA Labor-Management Cooperation Trust (LIUNA/DCA-LMCT) is a partnership between the Laborers' International Union of North America (LIUNA) and the Distribution Contractors' Association (DCA) to facilitate labor-management cooperation, secure projects and jobs, and advance shared interests in the distribution construction market.

LIUNA/DCA-LMCT Unites Laborers, Contractors Around Common Concerns

In 2010, LIUNA/DCA-LMCT brought representatives of LIUNA and their signatory distribution contractors together to discuss common concerns.

Trustees and representatives of both LIUNA and DCA addressed a wide range of issues related to distribution construction, including market share expansion, geothermal projects, workforce development, and other legislative and political developments. The fund's trustees also explored these issues in greater depth at the DCA's 2010 Annual Convention.

The trust also monitored, and helped Laborers and contractors respond to, state and federal legislation related to the construction, rehabilitation, and maintenance of pipelines, cables, fiber optic networks and other distribution infrastructure systems.
